### IV. FIRST AID MEASURES

#### Emergency Procedures :

- Inhalation: When safe to enter area, remove from exposure immediately. If breathing is difficult, give oxygen. If breathing ceases, use a oxygen rescuer or similar device to perform artificial respiration . Seek immediate medical attention.
- Skin Contact : Remove contaminated clothing, jewelry and shoes immediately. Wash with soap or mild detergent and large amounts of water until no evidence of chemical remains ( at least 15~20 minutes) . If irritation or adverse symptoms develop, seek medical attention .
- Eye Contact : Flush eyes immediately with running water for at least fifteen minutes, occasionally lifting upper and lower lids, until no evidence of chemical remains. Seek immediate medical attention .
- Digestion : If swallowed, do not induce vomiting. Give 1~2 glasses of water to drink . Get medical attention immediately.

**Protection of First-aiders :**

1. Use gloves resistant to the material being used (ie. neoprene or Nitrile rubber).
2. Use chemical goggles and face shield.
3. Use NIOSH approved supplied air respirator.

**V. FIRE FIGHTING MEASURES**

**Suitable Extinguishing Media :** regular dry chemical, carbon dioxide, water, alcohol resistant foam.

**Large fires :** Use alcohol resistant foam or flood with fine water spray.

**Specific Hazards :** Carbon oxides and various hydrocarbon formed when burned.

**Special Fire Fighting Procedures :**

1. Move container from fire area and shut off source if it can be done without risk.
2. Cool containers with water spray until well after the fire is out.
3. Do not scatter spilled material with high-pressure water streams.
4. Dike for later disposal.
5. Use extinguishing agents appropriate for surrounding fire.
6. Avoid inhalation of material or combustion by products.

**VI. ACCIDENTAL RELEASE MEASURES****Personal Precautions :**

1. Avoid heat, flames, sparks and other sources of ignition.
2. Stop leak if possible without personal risk.
3. Small spills: absorb with sand or other non-combustible material.
4. Collect spilled material in appropriate container for disposal.

**Environmental Precautions :**

1. Eliminate all open flame in vicinity of spill or released vapor.
2. Stop the source of the leak or release.
3. Clean up releases as soon as possible .
4. Contain liquid to prevent further contamination of soil, surface water or groundwater.

#### **Methods for Cleaning Up :**

1. Clean up small spills using appropriate techniques such as absorbent materials or pumping .
2. Where feasible and appropriate, remove contaminated soil.
